Re: AIM Specialty Health Clinical Appropriateness Guidelines update -- MSK Interventional Pain Management

Dear Provider:

Anthem Blue Cross and Blue Shield and our subsidiary company, HMO Colorado (Anthem), is writing to inform you of the following updates to the AIM Specialty Health® (AIM) Clinical Appropriateness Guidelines. AIM is a separate company.

Effective for dates of service on and after August 16, 2020, the following updates will apply to the AIM Musculoskeletal Program: Interventional Pain Management Clinical Appropriateness Guideline.

Musculoskeletal Program: Interventional Pain Management Guideline updates by section:

General Requirements – Conservative Management

- Addition of physical therapy or home therapy requirement and one complementary modality based on preponderance of benefit over harm to conservative care
- Align with approach to conservative management defined in spine and joint surgery guidelines

Epidural Injection Procedures and Diagnostic Selective Nerve Root Blocks

- Addition of statement about adherence to ESI procedural best practices established by FDA Safe Use Initiative. Recommendations are intended for provider education and will not be used for adjudication.
- Clarification of intent around requirement for advanced imaging for repeat injections

Paravertebral Facet Injection/Nerve Block/Neurolysis

- Remove indication for 4 unilateral medial branch blocks per session based on panel consensus

Paravertebral Facet Injection/Nerve Block/Neurolysis continued

- Procedural clarification restricting use of corticosteroids for diagnostic MBB based on panel consensus
- Limit use of intra-articular steroid injection to mechanical disruption of a facet synovial cyst
- Remove indication for intra-articular steroid injections based on new evidence for lack of efficacy
- Increase duration of initial RFN efficacy needed to avoid a MBB to 6 months based on panel consensus
- Clarification that MBB or RFN is not medically necessary after spinal fusion

Spinal Cord and Nerve Root Stimulators

- Clarify inclusion of different stimulation methods for spinal cord stimulation
- Add new indication for dorsal root ganglion stimulation
- Clarify exclusions for spinal cord and dorsal root ganglion stimulation

As a reminder, ordering and servicing providers may submit prior authorization requests to AIM in one of several ways:

- Access AIM **ProviderPortal_{SM}** directly at providerportal.com. Online access is available 24/7 to process orders in real-time, and is the fastest and most convenient way to request authorization.

- Access AIM via the Availity Web Portal at availity.com
- Call the AIM Contact Center toll-free number: 877-291-0366, Monday–Friday, 8:00 a.m.–6:00 p.m. MT.

For questions related to guideline updates, please contact AIM via email at aim.guidelines@aimspecialtyhealth.com. To access and download a copy of the current and upcoming guidelines, go to: <http://www.aimspecialtyhealth.com/ClinicalGuidelines.html>.

We value and appreciate you as our partner in providing quality care, and appreciate your continued participation in our network.

Sincerely,

Elizabeth Kraft, M.D.
Medical Director
Anthem Blue Cross and Blue Shield
